Our 2 decade association with GOLDEN BRAND GENERAL TRADING LLC. in Dubai is our strength in marketing expertise. Professional approach & Complete customer satisfaction is always our motto. We always adopt to new innovations in designs & products as per market requirements.

# HENNA ROYAL

*Premium Quality*

NATURAL PURE HERBAL

# Natural Henna

Henna (*Lawsonia inermis* / mehandi) is a flowering plant and the sole species of the *Lawsonia* genus. Henna leaves contain dye which stains your skin. The dye molecule (lawsone) binds to the keratin in your skin. Henna penetrates only the top few layers of skin, so as your skin exfoliates away, so does the henna stain. This is what makes it temporary. The stain will gradually darken over the course of about 48 hours. This happens because of oxidization. Air oxidizes the henna stain much like it does an apple.

## Benefits of Natural henna

The beautifying properties of henna are known since ancient times. this natural product is used by Royal families during traditional Celebrations, festivals and religious rituals.

## Henna is used in various parts of the world for numerous benefits and beautifying properties

- Henna is safe and 100% natural product
- Henna paste calms you by extracting the excess heat from your body
- Henna has antifungal properties and acts as a natural sunscreen
- Spiritually henna is believed to bring happiness, good fortune and benevolence of universe
- Henna application is fast, easy and painless
- Henna tattoos are natural so they are free from toxic chemicals.

## Henna provided by us has the following characteristics:

- Purity: 100 % natural and fresh henna free from pesticides or chemicals,
- Body Art Quality: Made from top quality selected henna leaves, double filtered to perfection.
- Final product: Cleaned, crushed and filtered to perfection free from dirt, sand, girt, etc.
- Colour: Natural dark maroon.

## Crown Henna Royal

### زيت إكليل الجبل

يعد الضغط على البارد والتقطير بالبخار من الطرق الشائعة المستخدمة لاستخراج الزيوت الأساسية من الأعشاب مثل إكليل الجبل.

Cold-pressing and steam distillation are common methods used to extract essential oils from herbs like rosemary.

## Fenugreek Oil

### زيت الحلبة

يُعرف زيت الحلبة بأنه أحد الأعشاب الطبية التقليدية والواحدة التي تنتمي إلى العائلة البقولية.

Fenugreek oil is known as one of the traditional and most promising medicinal herbs belongs to the leguminous family.

## Indian Coconut Oil

Golden Brand Pure Indian Coconut oil is extracted from the flesh of the coconut. It is one of the few foods that can be classified as a "superfood" that has many protective health benefits due to its excessive amounts of antioxidants. Coconut oil has a wide array of health benefits, hair and skin use, and uses around the home. It is one of the richest sources of saturated fat, with almost 90% of the fatty acids in it being saturated, Saturated fats play key roles in immune health.

### Traditionally Coconut oil has various beneficial properties as follows:

- Promotes healthy and shiny hair
- Moisturizes and Nourishes Skin
- Improves bone strength and dental health
- Controls blood sugar levels
- Helps to loose weight
- Provides Mental Boost

## Black Seed Oil

The Black Seed oil is exceptionally rich, it is a combination of glycosides, phenolic compounds, carotene, minerals (phosphorus and iron), enzymes and essential polyunsaturated fatty acids (linoleic acid). Therefore, regular intake of Black Seed oil can bring countless benefits.

It is beneficial for the skin to reduce inflammation caused by stress, pollution, sickness or aging. It can be used internally and externally.

Externally, Nigella oil is used for calming, regenerating, revitalizing and anti-inflammatory (like rheumatic diseases, to relieve spasms, joint pains and it can also tone the hair). It is particularly suitable for sensitive, dry or irritated skin.
